About the CD

The *Gold Star Performance* CD is a discovery in sound for both listening and playing along. Repeated listening, with and without the score, will familiarise students with diverse musical textures and sonorities—a lively marching band, the bass sounds of roaming pterodactyls, or ringing French cathedral bells. The educational recordings provide more than student demonstration—they provide settings in harmony, style, and rhythm which explore the expressive and dramatic qualities of the piano. Solo piano performances, superlatively performed by Nancy and Randall Faber, are included on the CD as well.
